

## teacher notes

### preparation

- print this outline
- create blank repo with desktop client for project work on class

### outline

- check-in round: how are you? did you have time to revisit last class?
- what will we do today?

review what we've learned so far  
progress with project work

- workshop sections: review + CA + time for work
  - text styles
  - sectioning elements
  - layout: wrap class
  - navigation with flexbox
  - "Our Work" boxes using basic box model
  - "Meet your new team" boxes using grid
  - "We wrote a book" section using grid
- optional homework - do more project work!
- check-out round: how are you? what was your key takeaway today? is there something you would change?
